Re: Azetidine Compounds and Process for Production Helf. 582-834 and 835 PM 665 and 666

Dear Howard:

In regard to inventorship in these applications, I enclose a letter from Dr. Norman H. Cromwell to me, dated October 21, 1975 with attached copy of his agreement with Philip Morris which I believe you have seen previously. Also enclosed is a letter from him to Mr. Adam, March 1, 1975, to which he refers in the present letter.

Naturally, our only concern is to see that these applications show the true and complete inventorship. We believe you and Mr. French are in the better position to determine this objectively, and you should have all the records on which to base judgment. The recent requirement by the Examiner for election in Case PM 663 may also enter the picture; it seems to me a similar requirement in PM 665 may be forthcoming.

If we can furnish anything further, please let me know.

Very truly yours,

G. E. I
